

Marketplace of Ideas, How to.

Take 1 presenter
add 1 host and a note taker.
provide a stopwatch and an audience

9 Minutes per presenter, including feedback

2 min **Presenter speaks briefly.**
This can include a self introduction and the background to their subject. The talk should follow a who, where, what, why and how structure and conclude with statements that look for feedback from the panel and participants. The presenter is looking for feedback on an idea / project, or suggestions to create a solution to a particular issue.

1 min **Panel** asks clarifying questions, not advice. *ie* How is it funded? Who participates? Why did that happen?

1 min Presenter **briefly** clarifies / refocuses on the **most** important points

4 min **LIGHTNING ROUND** style - All questions from group. *Presenter listens without responding.* Audience / Entire group participates in discussion, offers ideas and advice. The note taker records the feedback for later review by the presenter.

1 min Panel calls time after 4 minutes to wrap up the lightning round.

=====

1 minute to set up for the next presenter. Repeat.
